Fine instrument of the month: *Bill Glez* Romantic Terz Guitar #2201

🌱 Luthier Bill Glez presents us with this resplendent creation, inspired by the esteemed 1888 Antonio de Torres model. Crafted with a soundboard of Engelmann Spruce and Flamed Maple back and sides, this guitar resonates with a remarkable volume and offers supple comfort for the player. Tuned a minor third above the standard pitch, many guitarists opt for a 415-432 Hz tuning when playing this instrument. Explore its traditional sound, especially when strung with gut strings. Embrace the opportunity to let this guitar transport you to another era.
